May 2011

MEDIA & VIDEO CONFERENCING INFORMATION NOTE

As you will be aware, many interesting and praiseworthy things occur in a school and are achieved by our students. We would like to be able to share these with the local community by allowing the local newspapers to publish stories about the school, when appropriate.

Some stories are enhanced by suitable photographs accompanying them. However, we would not like to publish pictures of your children against your wishes, so are seeking your assistance in giving permission for photos of your child to be used in this manner. Any publication of this nature would have input from the school, so that unsuitable pictures were not used.

We would also like your permission to use photographs of your child in school publications or on displays about the school (eg at concerts).

We are also requesting your permission for your child to be involved in video conferencing in the connected classroom at Kellyville High School. This will allow the students to communicate with outside agencies and schools etc. This incorporates the integration of technology within the school curriculum, and provides deeper understanding on topics and issues being taught at Kellyville High School.

Could you please assist the school by completing the form below if you do not wish your son/daughter's image to be used for educational/promotional purposes.

M. Groth
Deputy Principal
